**FORGED
TOUGH**

Always wear goggles when using hand tools.
Protect your eyes from flying particles and dust.
Bystanders shall also wear safety goggles.

F O R E W O R D

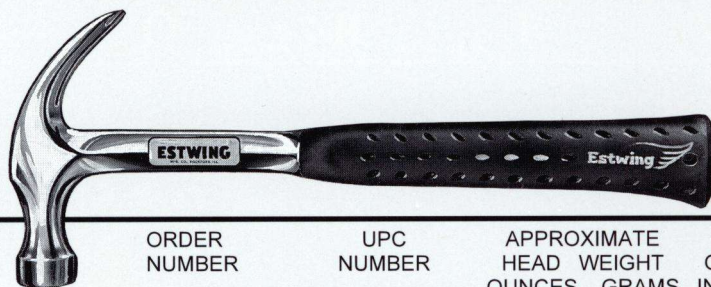

Since 1923 the Estwing family has taken pride in designing and manufacturing the world's most durable, comfortable and attractive striking tools. All claw hammers, axes, specialty tools and pry bars are manufactured to the highest possible standards and offer a true value to both tradesmen and craftsmen alike.

Estwing has grown from a very small manufacturer to one of the world's largest manufacturers of premium striking tools. This growth and our continued success is based on the Estwing family's pride and insistence upon manufacturing the world's finest striking tools.

Unique Design and Construction Features

Forged one-piece solid steel construction, the strongest construction known, eliminates loose heads. Estwing nail hammers are available with beautiful laminated leather grips or exclusive nylon-vinyl deep cushion grips that will not loosen.

Estwing hammers are also available with Grade "A" White Hickory handles and Fiberglass handles with "Fiber-Lock".

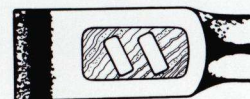

Exclusive nylon-vinyl grip, bonded to steel handle. Assures comfort and durability. (No replacement grips needed.)

Laminated leather washers are pressed on and riveted. Grip is double lacquered for beautiful finish.

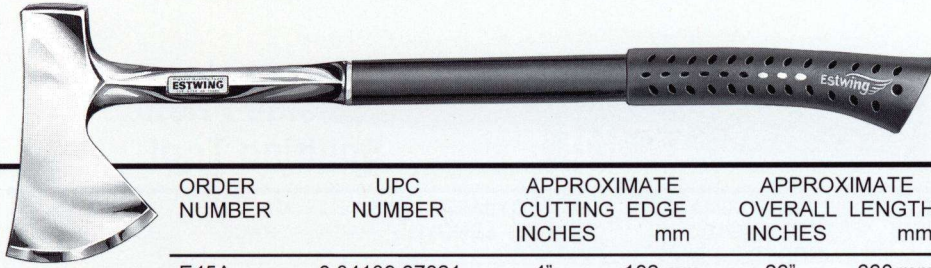

Molded Nylon Sleeve locks in Fiberglass Core and offers ultimate overstrike protection.

Top Grade "A" Hickory Handle with triple wedge construction.

Work Safely When Using Hand Tools

Always wear Safety Goggles when using hand tools. Protect your eyes from flying particles and dust
Always require bystanders to wear Safety Goggles.

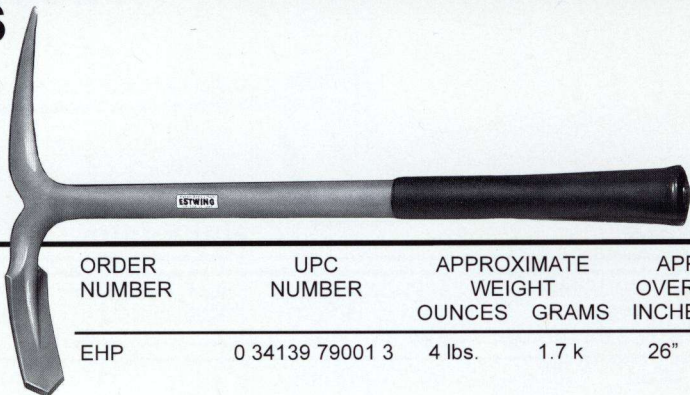

Always use the correct striking tool for the job. A nail hammer is intended for driving and pulling common nails only.

Always strike surface squarely using the center of the hammer face.

Never strike one hammer with another.

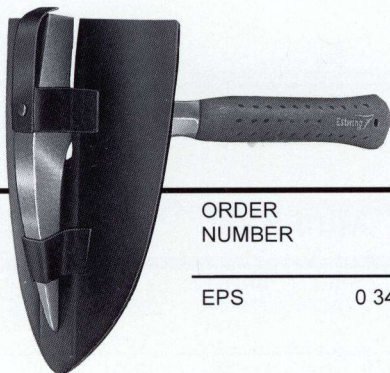

Never strike a chisel or other hand tool (axes, etc.) with a nail hammer.

Always discard a hammer if the striking surface or its bevel show dents, chips, mushrooming or is excessively worn...or if claws show indentation, nick inside nail slot, or a claw is broken.

Protect Your Eyes—Wear Safety Goggles

OSHA regulations 29 CFR 1910.133 requires the use of eye protection not only to workers using striking tools, but to nearby workers in the immediate work area. Similar requirements are contained in OSHA Construction Standards 29 CFR 1926.102. Mine Safety and Health Administration requires eye protection in the Mining environment 30 CFR 55.14-4, 30 CFR 56-15-4, 30 CFR 57-15-4, 30 CFR 75.1720 (a) and 30 CFR 77.1710 (a).

Always wear goggles when using hand tools.
Protect your eyes from flying particles and dust.
Bystanders shall also wear safety goggles.
